DETAILED ACTION

Status of Claims

Claims 1-6 are pending. However, claims 5 and 6 have been withdrawn as being drawn to non-elected subject matter.

Specification

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Information Disclosure Statement

Receipt of the Information Disclosure Statement filed 08/21/03 and 07/02/04 respectively is acknowledged and has been entered into the file. Signed copies of the 1449 are attached herewith.

Election/Restrictions

Art Unit: 1626

Applicant's election without traverse of Group I, claims 1-4 in the reply filed on 09/15/05 is acknowledged.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The expression "Ar is Ar is" (page 2, 3rd line from the bottom and page 4, 1st line after formula (III)) is idiomatic and therefore indefinite. Additionally, "and" page 4, line 2, should be inserted between ---pyrazinyl and pyridazinyl--- for proper Markush format.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-2 and 4 are rejected under 35 U.S.C. 102(a) as being anticipated by Buchwald et al., WO 02/085838.

Applicants claim a method for preparing a compound of formula (I), comprising reacting a compound of formula (II) with an aryl halide of formula (III) in the presence of a bidentate ligand of formula (IV) in the presence of a copper catalyst.

Art Unit: 1626

Buchwald et al., disclose the preparation of 4-benzyl-3-phenyl-2-oxazolidinone, which comprises reacting an aryl halide with an aromatic compound in the presence of a ligand in the presence of a copper catalyst. See page 16 and Example 130 on page 163.
